AUSTRIA SIGNS ARMISTICE. QUIT FIGHTING YESTERDAY.

An armistice between the Austrian and Italian forces was signed Sunday afternoon and fighting ceased at three o'clock yesterday afternoon.

The conditions of the armistice will be given to the public some time today.

Austro-Hungarian troops are being withdrawn from the western front and the Germans, bearing the allies will march through Austria, are digging trenches and erecting fortifications along the Bavarian frontier, according to a Vienna dispatch to the Politiken.

The terms under which the debacle on the Italian front ended Monday at 3 p. m. (9 a. m. Eastern United States time), include complete demobilization of Austrian forces, surrender of one-half of all artillery and military equipment, occupation by American and allied forces of such strategic places as may later be selected, use of the Austrian railroads for operations against Germany, evacuation of all invaded territory leaving behind all equipment and supplies, including coal; surrender of a portion of the Austrian surface and submarine fleets and disarmament of others under American and allied control, surrender of all German submarines in Austrian waters, and repatriation of allied and American prisoners without reciprocity.

Evacuation of Austrian territory roughly corresponds to the boundary lines claimed by Italy under the Italian treaty of London program.

All German troops in Austria-Hungary, Italy or the Balkans must be out or interned within fifteen days.

Destruction of any property by retreating forces is specifically forbidden.

Ships to be surrendered include fifteen modern Austrian submarines, three battleships, three light cruisers, nine destroyers, twelve torpedo boats, one mine-layer and six Danube monitors to be designated by the allies.

All other war craft are to be concentrated and disarmed under allied direction.

Free navigation of all Austrian waters by both the war and commercial fleets of the allies is provided for.

The Danube route is to be kept open by the occupation or dismantling of fortresses to be selected by the allied commander.

All fortresses protecting Austrian naval bases or stations are to be occupied and the arsenal at Pola is specifically surrendered. All allied craft held by Austria are to be returned immediately.

To Aid Crippling Influenza.

The local review of the Woman's Benefit Association have received information that many such organizations are organizing at once in giving efficient aid to the Government and civil authorities in checking the Spanish Influenza.

As the Association has well established Hospital committees and a membership of 185,000 women throughout the United States, it is well equipped to give its help.

The organization is represented in this locality by Review No. 1 with Mrs. Mary Elder as commander and Esther Antonides as record keeper.

Attractive cards with definite instructions as to preventative precautions have been sent out and placed in the homes of the membership.

The local review is joining with the authorities in giving all possible aid in stopping the spread of this epidemic.

Open Road to Berlin.

The supreme war council at Versailles, has under consideration the starting point in framing terms of an armistice. Among the proposals are that Germany be required to withdraw her armies without their military supplies or the loot being carried from France and Belgium, to a zone thirty miles to the German side of the Rhine, and that the entire German army, including submarines and the Helgoland fortress be surrendered. From a military point of view the proposal that the German armies be disarmed and retired thirty miles beyond the Rhine is classed only as tantamount to an absolute surrender. It would not only throw open to the allied and American armies many roads to Berlin, itself, but with the surrender of railway rolling stock deprive them of means to retrace their steps, or fight if they would.

Penalty for Prolong War.

Pacific penalty for every day that the war is prolonged after the allied terms are presented to Germany, is one of the allied conditions of the armistice terms. It will be much worse for the enemy if they fail to recognize the armistice terms and carry on the war further. There will be no abatement of severity in the allied terms and the continuation of the war which has held nothing but four years of horror will be paid for two fold.

AMERICA TO HAVE LARGEST GUN PLANT

When completed the government gun plant at Neville Island, near Pittsburgh will be the largest in the world, compared to which the Krupp gun works will be pigmy, and it will require about two years to complete it at a cost approximating \$200,000,000.

It is purely a government project, and to the American Steel Company is entrusted the matter of expending the money, on a dollar-a-year plan. Which means that on the basis of requiring two years to complete the project the company will receive the sum of \$2.00 for supervising the expenditure of more than \$200,000,000. The main building is to be one mile wide and three miles long, thereby enabling the entire process of construction of a modern gun to be completed under one roof.

There are at present about 2,500 men at work on the plant housed by the government in quarters similar in every respect to the regular army barracks. Comfortable individual beds are furnished to each man, and meals are furnished on the co-operative plan conducted without profit.

There will be about 2,500 homes erected on the island for government employees at an average cost of about \$5,000.

The United War Work Drive.

Lincoln County Council of Defense, North Platte, Neb., Nov. 2, 1918.

To the Patriotic Peoples of Lincoln County, Greeting:

Your County Defense Council desires to call your attention to the fact that the war activities that have heretofore appealed to the public for support under the separate organizations of Y. M. C. A., Y. W. C. A., Jewish Welfare, War Camp Community Service, Salvation Army, American Library Association, National Catholic War Council and Knights of Columbus have been officially placed under the supervision of the War Camp Community Service by the commissions on Training Camp Activities, representing the War and Navy Departments.

To provide funds to meet the expense of these various activities there will be one grand drive, beginning November 11, to raise the sum of \$250,000.00. The quota to be raised by this county is \$30,000.00.

A committee under the chairmanship of C. O. Weigand has charge of raising the Lincoln county quota.

Under this plan of campaign, there will be but one drive instead of seven.

This committee will see that you have an opportunity of contributing to this worthy cause. It is not only the duty of every one to contribute to this fund, but it is a great privilege to have the opportunity in this manner of showing our appreciation of the boys over there, who are fighting for our rights and for the protection of "Old Glory."

We bespeak for a generous response.

T. C. PATERSON, Chairman.

Another Liberty Loan Coming.

Secretary of the Treasury McAdoo has announced that, no matter what the results of the pending overtures for peace may be, there will be another Liberty loan. To use his expression, "We are going to have to finance peace for a while just as we have had to finance war."

There are over 2,000,000 United States soldiers abroad. If we transport these men back to the United States at the rate of \$30,000 a month, it will be over half a year before they are all returned. Our Army, therefore, must be maintained, victualled and clothed for many months after peace is an actuality.

The American people, therefore, having supported the Liberty loan with a patriotism that future historians will love to extol, will have an opportunity to show the same patriotism in financing the just and conclusive victorious peace whenever it comes.

Bad Wreck in New York.

Over one hundred people were killed Friday night in a wreck of an elevated train on the Brighton Beach line of the Brooklyn Rapid Transit company. The accident occurred just at the supper time and the train was crowded with workers going to their homes, standing room being at a premium and the platforms each being crowded with passengers.

The train left the track on rounding a sharp curve in the tunnel. The front car of the train left the track as the curve was made and was thrown across the tracks in such a position that the following cars plowed thru the center.

Two Kearney Men Killed.

W. H. Keefer, manager of the Stickle Lumber company for the past 10 years, and J. F. Swan, a local merchant both of Kearney, were killed Sunday evening when their car was struck by Union Pacific train No. 2. They had large potato holdings west of the city and were returning from an inspection of the crop. They failed to hear the train and were crossing the track ahead of it.

Furs! Furs! In sets and separate pieces, for women, misses and children, made up to the minute in style, in Foxes, Marmots, Minks, Beaver, Raccoon, Lynx, Frenchoney, etc. All priced very reasonably. BLOCKS.

Loans to Our Allies.

The extension of a credit of \$9,000,000 to Belgium under a recently makes the total advances by the United States to Belgium \$80,020,000.

The total amount advanced to date to all of our associates in the war against Germany is \$7,529,476,000.

Including cash received in the Treasury Department on October 21 from the sale of War Savings securities, the total Treasury receipts from this source amounted to \$801,453,415.86. This represents the purchase of War Savings stamps to the total maturity value of approximately \$950,824,474.10.

Hard-working men and women are as liable to kidney, liver and bowel disorders as any others. Prickly Ash Bitters is the worker's friend, because it keeps these organs in sound vigorous condition. Price \$1.25 per bottle. GUMMERE-DENT DRUG CO.

THE SECOND LINE OF DEFENSE

From the Mississippi valley to the flaming front in Flanders is not as far today as the distance from Paris to Berlin. The Atlantic ocean is not as wide as the River Somme. The girl in the munition factory in the middle West is very close to her brother in the front-line trenches. If her work falters, if one untrue torpedo passes the careful scrutiny of the inspector, the lives of American soldiers pay the price.

It is as necessary to keep the girl who makes the shells physically fit and high of courage as the man who fires the gun.

The glory and excitement of war are for the man in khaki. Grinding, monotonous labor far away from the flying flags and martial music is the portion of the girl who makes munitions.

One and a half million women and girls have marched into the service of the United States government, to take the places of the men who have been called to the colors. With every draft and with the opening of every munition cantonment the number is multiplied. These girls work long hours and the work is hard and monotonous. Furthermore, they work at high nervous tension. On the skill of their fingers and the accuracy of their eyes depends the lives of many soldiers, the winning or losing of many battles.

"I can't sleep at night because I'm so afraid I may have passed on something that was not quite true," said one young girl not yet in her twenties, who inspected hundreds of torpedoes every day.

Unless something can make this girl forget at night, and find some rest, her hand will lose its cunning.

"Nights and Sundays," said another, "I walk and walk, and I never go the same route twice until I have worn out all the others, and yet I can't forget that perhaps some time, somehow, during the day something may have gone through that was not quite right."

"I was just on the edge of going back home," said another. "I couldn't stand it. Then the recreation leader asked me if I played basket ball, and I told her I was too old. I'm twenty-eight. She insisted that I just try throwing the ball, and now I'm captain of the basket ball team. I play tennis, and can 'set up' and 'wig-wag,' and they're going to make me forewoman of the room. That would have frightened me to death once. But everything is different now, that we have our War Service club."

The war department had seen the need of occupations for out-of-work hours if the employees were to work at their greatest efficiency, and through the ordinance department asked the Young Women's Christian Association for recreation leaders, to line up the girls and direct their free-time pleasures.

The government reminded the Y. W. C. A. that as an organization it always had had an interest in the right housing of girls, in the right feeding of girls, and in the right education of girls, and that the intelligent care of these girls in the munition factories was one of the essentials in the winning of the war. The government could house and feed them. It could put up recreation buildings, but when this was done it was as helpless as the father of a motherless girl. The government is a composite man. He didn't know what a girl should do when the six o'clock factory whistle blew. He only knew she needed looking after and he called to the one woman's organization that for half a century had made a study of the needs of girls. Vaguely, he had an idea that she should be encouraged to play, that she needed wholesome recreation, and some one, wise and sympathetic as a careful mother, to guide her social activities.

The Blue Triangle sent its lady lady to salute and go to work. Workers are asked for in recreation buildings of all the 22 federal industrial reservations or munition cantonments which have been opened this summer in several of the states. These reservations sprung up out of the very fields in a few weeks. They are employing thousands of workers. Many of these women have come from far distant homes. The government provided dormitories and mess barracks. In some places it is putting up recreation buildings. Where such a building is not provided by the government, the Y. W. C. A. will furnish it, using one already standing when available, and building when that is necessary. All these buildings, whether government or association-owned, will operate under the sign of the Blue Triangle. They will have big living rooms, assembly rooms for entertainments, club rooms and gymnasiums. The Blue Triangle will furnish a program of service work, educational classes, games and entertainments. Military and signal corps drills will be in charge of soldiers.

In Washington, the members of the Business Women's council, a Blue Triangle league of the Y. W. C. A., made up of girl government employees, drill twice a week under an army officer, and between five and six o'clock on these days long lines of motorcars are parked to watch the drill.

Wherever possible the recreation equipment includes a field somewhere for outdoor sports.

War clubs are a part of the plan and membership in these involves a pledge to serve to the best of the girl's ability in the ranks of the Woman's Industrial Army—the "second line of defense," and a promise of loyalty by promoting in every possible way the spirit of service.
